STORM DAMAGE CLEAN-UP

It appears Lisle Township experienced a microburst yesterday Sunday, July 25th. There are numerous damaged and downed trees, both private and parkway, throughout the township. Our crews have begun cleaning up on a priority basis to help clear streets and driveways. Additional crews and equipment will be here tomorrow, Tuesday, July 24th. Please bring your damaged trees and branches to the curb for pick up. It would be helpful if you can bundle what can be bundled.

We ask for your patience as we cleanup from this storm. Should you have any questions, please call the Highway Department at 630-964-0057.
